GRAPHENE LEADERS CANADA INC.
PRESENTS AT

THOMAS EDISON WORLD FOUNDATION
Top Canadian Inventors Emerge to Disrupt Entire Industries

VANCOUVER, Aug. 11, 2015 /CNW/ - On July 25th, 2015 the World Entrepreneur Forum launched its pursuit of 'Finding the Next Thomas Edison' held at the University of British Columbia, in Vancouver, and featured the following three companies to highlight disruptive technologies including: *Graphene Leaders Canada Inc.* with patented nanomaterial technology that is 200x stronger than steel and 7x harder than diamond; *MTT Innovation Inc.* with a light-steering laser projection technology to revolutionize the automotive, television and film industries; and *Hempco Canada* which is advancing in hemp seed foods.

Graphene Leaders Canada (GLC) Inc. presented their technology platform of very high quality and high purity nanomaterials and explained how graphene is a disruptive technology offering outstanding properties to support an unlimited number of vertical development opportunities. GLC has a competitive advantage with superior quality and purity liquid phase, and green production process that can easily integrate into product development. Graphene is often described as the miracle material of the 21st Century - at 1million times thinner than a single human hair, 200 times stronger than steel, 7 times harder than a diamond, 1000 times more conductive than copper, the opportunities for solving industry problems opens the door to an unlimited number of applications.

About Graphene Leaders Canada Inc.

Graphene Leaders Canada (GLC) Inc. is a private Alberta technology company producing very high quality, and high purity graphene nanomaterials which function as a platform technology leveraging the properties of graphene to integrate into unlimited application solutions. GLC will work with industry to develop new innovative and first-to-market products and solutions. GLC is focused in the environment and coatings markets. GLC's tag line is *"Making Great Products Even Greater"*
