GRAPHENE LEADERS CANADA INC.
PRESENTS AT CITIES AND CLIMATE CHANGE CONFERENCE 2018

EDMONTON, AB, March 7, 2018 – Graphene Leaders Canada (GLC) Inc. a leader in graphene solutions development announced today that the Company presented at the **Cities and Climate Change Conference** co-sponsored by the Cities **IPCC** (Intergovernmental Panel on Climate Change), part of the United Nations Environment Programme (UN Environment) and the World Meteorological Organization (WMO). The conference was held at the Edmonton Shaw Convention Centre on March 5 – 7, 2018. Presenting for the Company was Donna Mandau, President and CEO and Dr. Leah Coumont, Director of Research and Development. GLC's presentation was an integral part of the Alberta Solutions to Global Climate Change Challenges which showcased GLC as a next generation innovator building on Alberta's existing foundations to prepare Alberta for the Fourth Industrial Revolution. The 2018 conference was described as one of the most important climate change deliberations to date and a historic milestone in implementing the Paris Agreement on climate change.

A live webcast of the presentation is available and can be accessed on Facebook at <https://www.facebook.com/IPCC/> In conjunction with this conference, GLC presented its new video showing the Company focus and product solutions developments to date. The video is also available on its website at www.grapheneleaderscanada.com in the "In the News" section.

About Graphene Leaders Canada Inc.

Graphene Leaders Canada (GLC) Inc. is a private Alberta technology company producing high quality, high purity graphene nanomaterials which function as a platform technology with the ability to add value across numerous applications. GLC's focus is to work with industry to develop disruptive solutions via integration of graphene to develop new innovative products. GLC is focused in the environment-water and coatings markets. GLC's tag line is **"Making Great Products Even Greater"**.
