**GRAPHENE LEADERS CANADA (GLC) INC.  
SIGNS MEMORANDUM OF UNDERSTANDING WITH  
NORTHERN OIL RESEARCH TECHNOLOGIES (NORT)**

**EDMONTON, AB, February 1, 2024** – **Graphene Leaders Canada (GLC) Inc.** is pleased to announce the Company has signed a Memorandum of Understanding with Northern Oil Research Technologies (NORT) with the intent of a groundbreaking collaboration aimed at advancing cutting-edge technologies in the energy sector. This strategic partnership brings together the expertise of GLC in graphene-carbon research and development and NORT's innovative approaches to oil research, creating a formidable alliance to address the evolving challenges in the energy industry.

Graphene Leaders Canada is a leading research and development company specializing in the production and application of graphene-based materials. With a commitment to pushing the boundaries of innovation, GLC has consistently been at the forefront of advancements in the field. Their expertise spans various industries, including materials science expertise, environment water purification, coatings, medical diagnostics and energy. GLC's G2+ graphene additives provide disruptive advantages in the properties of various new innovations in development.

Northern Oil Research Technology (NORT) proudly introduces the B2U™ Upgrading Technology, a revolutionary and environmentally friendly approach to oil upgrading at low temperatures and pressures in the *liquid phase*. The B2U™ process is designed to be both highly efficient and sustainable, boasting a zero-CO2 emissions footprint. This groundbreaking innovation reflects NORT's commitment to positive industry change and sets new benchmarks for reduced operating costs and enhanced sustainability across the entire value chain.

Frederick Boakye, President of NORT said, "This strategic alignment is aimed at providing innovative and sustainable environmental solutions. As leaders in our respective industries, we recognize the urgent need for comprehensive approaches to address environmental challenges. This collaboration signifies our shared commitment to a sustainable future and marks a significant step towards positive industry change".

**About Graphene Leaders Canada Inc.**

Graphene Leaders Canada (GLC) is a leading research and development company specializing in graphene-carbon based materials. GLC is focused to work with industry to develop solutions by integrating the graphene to develop new innovative products. Through innovative solutions and expertise in graphene manufacturing, GLC contributes to reshaping various industries.

GLC's tag line is "**Making Great Products Even Greater**". For more information, visit [www.glcplus.com](http://www.glcplus.com)
